

Evidence-Led Abatement Priorities

Locked Stage 03A tiers | recent volume and recurrence gates, with a separate short-history watchlist

Abatement evidence tiers

No tier is a finding of regulatory responsibility or intervention feasibility

Locked decision rules

HIGH

Recent 2023-2025 estimated volume $\geq$ P90 (72.498 million m³) AND $\geq$ 10 positive-volume years.

ELEVATED

Recent volume $\geq$ P75 (12.287 million m³) AND $\geq$ 10 positive-volume years; includes HIGH.

WATCHLIST

Recent-volume P90 but <10 positive-volume years. Separate context flag; not a tier change.

Trend direction remains descriptive only; it is not a prediction.
